

EMPOWER YOUR WORKFORCE WITH A DIGITAL WORKSPACE

At Eastern Computer Exchange, we're helping organizations empower their workforce with secure, single sign-on access to the apps and data they need to be productive – any time, on any device.

Introducing VMware Workspace ONE

VMware Workspace ONE is a unified platform that manages and delivers any application, on any device. Along with enabling organizations to provide secure digital workspaces to their workforce, it's helping them modernize their endpoint management strategy.

VMware Workspace ONE from ECEI

Create digital workspaces for your end users and modernize your endpoint management strategy

Deliver Any App

- Legacy Windows apps
- On-premises apps
- Cloud-based apps
- Mobile apps

On Any Device

- Windows 10
- iOS
- Android
- Chromebooks

With Workspace ONE, you can:

CREATE digital workspaces

End users can go to one place for all their apps and data, regardless of device

UNIFY endpoint management

IT can monitor and manage all endpoints from one cloud-based portal

IMPROVE security & compliance

Establish and enforce access policies based on users, devices, or locations

How are organizations and end users benefitting?

With Workspace ONE, our customers are simplifying processes and realizing benefits across their entire organization.

END USERS

Consumer-like simplicity

Users can access cloud, mobile, web, and Windows apps through a simple, self-service catalog

Consistent experiences

Users get the same consistent view of their apps no matter what device they use

IT TEAMS

Enterprise-level security

Through conditional access policies, IT can support all of this while maintaining incredibly tight security

BYOD support

IT can implement easily-managed BYOD programs so end users can securely use their own devices

ECEI: Your VMware and digital workspace experts

Let us help you take advantage of VMware's industry-leading digital workspace and virtualization solutions. Together, we can turn the idea of "anytime, any device work" into a tangible reality in your organization.
